Bright Lazarus

Front-end web developer and Designer

---

https://brightlaz.github.io/brightlazarus/   https://www.linkedin.com/in/bright-lazarus-559284230
lazbright@gmail.com   +234 8105203606; Whatsapp:09023968637

Skills

Proficient: CSS, HTML5, JS, NODE.JS, BOOTSTRAP
Moderate: REACT.JS, WEB API
Additional: UI/UX DESIGN, GRAPHIC DESIGN

Projects

Landing page: https://brightlaz.github.io/landing-page/
- I converted a static webpage into a dynamic and interactive landing page
- The web page dynamically creates a link tag for each section added to it
- I added an active class that triggers on scroll and click events

Pixel-art-maker: https://brightlaz.github.io/Pixel-art-maker/
- I built a single-page web app that allows users to draw pixel art on a customizable canvas
- The submit button acts as a rest button to reset the canvas

Weather journal app: https://github.com/Brightlaz/weather-journal-app
- The app retrieves weather API data from an external source using the zip code provided by the user
- Read the README.md to know more about the app usage

Work Experience

Front-End Developer
Productsio, port harcourt Rivers state, Nigeria
- Developed the current Productsio website together with a team of UX/UI designers
- I manage their website, I make the needed update to the html, css and js files

Niralab, port harcourt Rivers state, Nigeria
- I am working together with the design agency to build their website
- Working with tools like js, node.js, gulp, etc

Graphic design
- Worked on projects for different clients
- Did some personal designs and am currently working my personal logo branding project
